# Catalog.

We love ceramics and we love design –  
that's what makes ORO BIANCO HANDMADE TILES so unique.

# Manufactory.

In our manufactory in Kannenbäckerland, we place particular emphasis on craftsmanship and sustainability. The unique raw material deposits in the Westerwald provide the basis for our unique and high-quality ceramic products. The light-colored clays in particular are characteristic and have led to great fame as the white gold of the Westerwald – ORO BIANCO.

As an established producer of high-quality natural products, we act with foresight. Sustainability has a special significance in our manufactory. In accordance with the cradle-to-cradle principle, our raw materials are recyclable; residues are constantly fed back into the production process in a controlled manner.

Each of our ceramic tiles is created with a great deal of expertise and precision craftsmanship and is a building block for rooms with an exclusive look. All Oro Bianco tiles are made in Germany.

ORO BIANCO carries the heritage of ceramic production with dignity and continues the art with pride.

**PURE FASCINATION.  
THREE-DIMENSIONAL SHAPES MEET SOFT COLORS.**

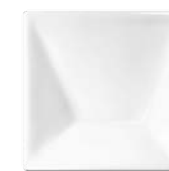

The ESPLANADE wall tile tells its own story – characterized by movement and elegance. ESPLANADE is a very special wall tile. With its gentle elevation or depression (ESPLANADE convex or concave), this is a rather unpretentious three-dimensional tile that adapts to almost any living space style. Light reflections make geometric patterns come to life, fascinating the viewer. The season plays a decisive role here. Whilst in summer even little slivers of light bring out its elegant shapes, the gentle sun of a winter morning creates small sparkles on the curved lines of ESPLANADE.

ESPLANADE **convex**

## BRICK – EXCEPTIONALLY ORDINARY

BRICK wall tile, with its horizontal format, creates amazing design options inside and outside. Its resolute length-to-width proportion makes it an expressive alternative to clinker on exterior façades and creates a high-quality impression of industrial design in interiors. With two different surfaces, BRICK becomes the perfect cladding for very different uses: Bar, feature wall or shop front.

**ECCENTRIC SHAPES  
AND VERSATILE GLAZES**

Whether geometric patterns or more unusual structures – LUX displays very different effects depending on the chosen tile layout design. While evenly laid patterns adapt to almost any furnishing style, it is also possible to install bold and asymmetrical walls which become very quickly the eye catcher in a room. LUX is therefore one of our most versatile tiles and delights its owners over and over again.

SIMPLE AT FIRST GLANCE,  
CAPTIVATING IN COMBINATION

At first glance, the DREIKLANG tile is unpretentious. Discreetly designed and flatly shaped, it adapts perfectly to virtually any environment. Combined with light, though, it develops a really strong character. The subtle three-dimensionality reflects the rays of light in a unique and unpredictable way – one reason why DREIKLANG is one of our favourite tiles.

**THE MOST EXPRESSIVE WALL TILE**

The diamond shape of the LIMMAT tile beautifies the room atmosphere. This wall tile can be installed in complex mosaics or other artistic motifs becoming a decorative element. When a discreet charm is desired, though, LIMMAT can be arranged horizontally. Complemented by appropriate fitting elements, the overall effect will be of unpretentious harmony. LIMMAT can either be used for decorative purposes or to embellish entire walls.

DISCREET AND CALMING

The wall tile PLÄTTLI is ideal for discreet interiors. Its dimensions and shapes match those of other products of the ORO BIANCO collection. PLÄTTLI can act as a calm counterpoint to the three-dimensionality of the other design tiles or it can be used on its own. PLÄTTLI is unpretentious, yet impressive. The overall effect of PLÄTTLI particularly depends on the chosen colour gamut. Whether discreet or bold, our PLÄTTLI is adaptable.

**LANDSCAPES FOR THE WALL  
IN 20 X 20 CM FORMAT**

The most striking argument for a wall covering with the BASIL tile is its three-dimensionality. It brings real depth and rhythm to the room. The wavy surface of BASIL is calm and noble when viewed as a whole. If you go closer, the relief invites you to touch it. BASIL is handcrafted. No wave is exactly like the other. The uniqueness of each surface makes it something very special, both haptically and visually.

20 X 20 CM –  
SIMPLE AND EXPRESSIVE

From a distance, LONDRA appears simple and noble as a smooth surface. A wide variety of glazes are possible. The 20 x 20 cm format makes particularly large surfaces beautiful and special to cover. If you go closer to LONDRA, the cloudy effect of the tile becomes clear. Each glaze makes the effect appear different. LONDRA is expressive without being obtrusive. It appeals especially to those who appreciate simplicity but do not want to dispense special designs.

## DISCREET AND UNIQUE IN 20 X 20 CM FORMAT

The PLANO tile is the big brother of PLÄTTLI. The size is coordinated with the shapes BASIL and LONDRA. PLANO can thus act as a calm counterpoint to the three-dimensionality of the two shapes. On its own, PLANO appears discreet and yet impressive. The glaze chosen has a great influence on the effect of the tile. Whether discreet or extroverted, our PLANO is versatile.

# Exclusive.

As a manufacturer with over 30 years of experience, we can realize any design request for you. We develop your tile exclusively for you in terms of shape, glaze or surface – to suit your project. Anything is possible with our handmade tiles.

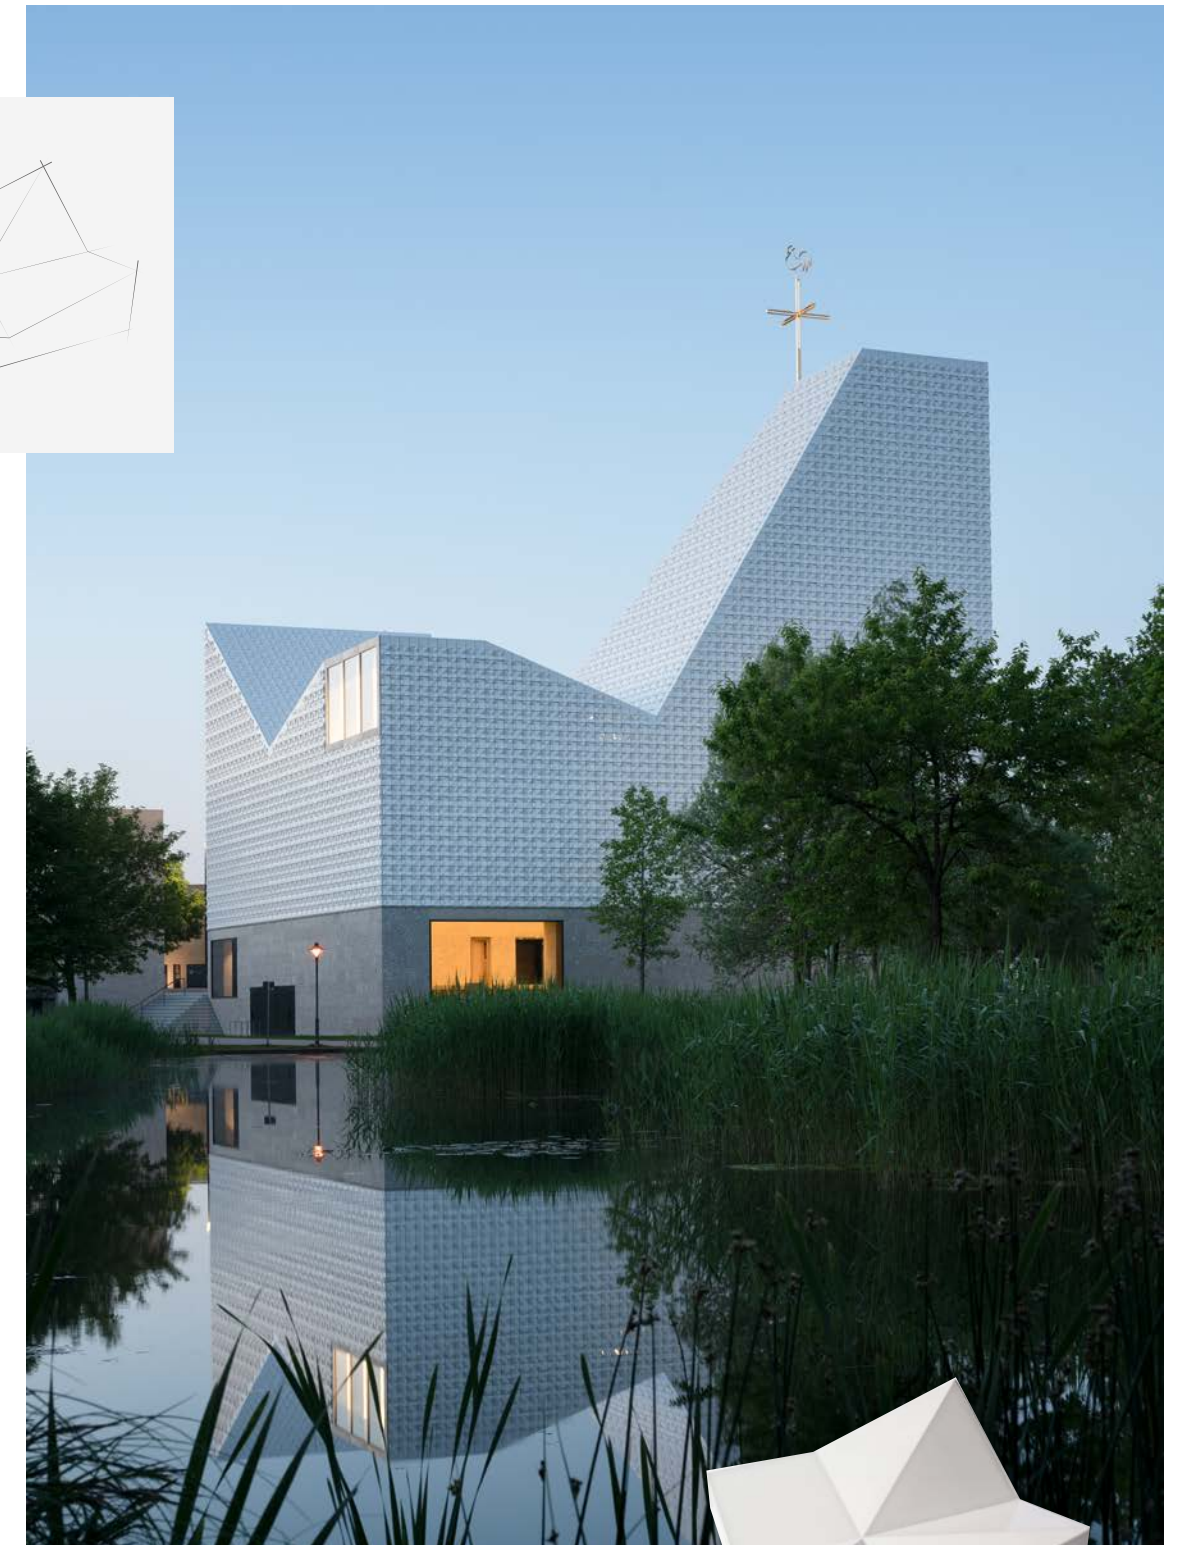

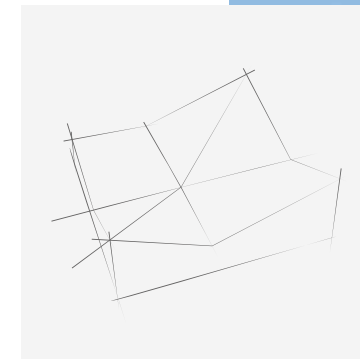

Whether for the point of sale, the catering and hotel industry, for your home, as an art project or for your unique façade project – we are at your disposal as a competent manufacturer and consultant. Get in touch with us. **We look forward to your ideas! Ideen!**

T. +49 681 94 553 314  
M. info@orobiancotiles.com

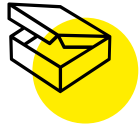

The scratch – and weather-resistant glazes are produced in the factory's own laboratory and applied by hand with precision, taking all design requirements into account.

The result – a shine that lasts forever. Our tiles are 100% UV-stable and graffiti-proof – making them equally suitable for indoor and outdoor use.

**Exclusive custom-made product** for the façade of the St. Michael parish church in Poing.

### **SAMPLE BOX DESIGN TILES**

Our sample box contains a selection of our collection tiles in various shapes and glazes. This gives you the opportunity to convince yourself of the look and feel of our high-quality tiles. The large compilation (Sample Box) costs a one-off fee of €70. If you require a single product sample – glaze color or tile shape – for your specific project, we will of course provide you with this free of charge.

### **3 D TILES FROM ORO BIANCO EXPERIENCE HANDMADE TILES UP CLOSE**

We invite you to a showroom tour to experience stylish wall coverings, handmade ceramic design and the many possibilities of our 3D tiles live. Please feel free to contact us.
